GAZETTE GLEANINGS.

Did Mooney owe you anything?
Coal is selling at ten dollars per ton.
Fitzgerald sold twenty-three lots yesterday.
The last few days have been fine weather for young ducks.
Matt Beckers has been sober ever since Mooney went away.
Both trains were behind time yesterday, detained by washouts.
The first floor of Doc Milligan's new building will be occupied as a clothing store.
A fine coal mine near Las Vegas is just what is needed now to double the boom.
We learn that railroad men from all along the line are buying property in Las Vegas.
The continuous wet weather will seriously interfere with the success of the Albuquerque fair.
The waterworks people are rushing things. They have headquarters for the present at Hot Springs.
We understand the raffle for the mineral collection of Henry Essinger will come off in a few days.
A heavy rain visited this section yesterday. It was a regular settled rain after the manner of the Eastern States.
Who is figuring on the contract for carrying the mail from Las Vegas to Fort Stanton? Better think about it, hadn't you?
Wood will be a cash article this winter and some man will make money by providing a goodly quantity near town, in case of severe weather.
Carl Schulz and R. Jacob, of Saint Louis, and M. Whiteman, of this city, go over to White Oaks today, to be gone some two weeks.
Calvin Fisk sold, yesterday, twenty-seven lots in the Buena Vista addition to Las Vegas, to J. Rosenwald for the sum of fourteen hundred dollars.
M. Whiteman, the pioneer merchant of White Oaks, has shipped twenty-two wagon loads of goods to his branch establishment at that place within the past few days.
The Pueblo News says, that tracklaying will soon begin on the D. & N. O. Railroad and expects the road to be completed to East Pueblo within the next ninety days.
The rainy weather is seriously interfering with the fair at Albuquerque. We are sorry for this as the first exposition should have a good send off. Everything promised well.
Mr. Jay Byrne got ready and got into his good clothes for a trip East yesterday, but owing to the wash-out below no train came for him, and at last accounts he was still waiting at the depot.
An effort is being made to form a consolidated coal prospecting company in Las Vegas. We hope it may succeed, and that mountains of black diamonds may be unearthed in our immediate vicinity.
Mr. Edward Henry, the grave, gray haired gentleman who presides at Browning's headquarters, has made up his mind to grow rich in his old age, and taken just the steps to do it, investing in real estate and advertising in the GAZETTE.
D. T. Mooney has not yet turned up, and one by one his villaies came to light. He seems to have come here to steal and swindle to the full extent of his ability and to have consistently kept this object in view and governed himself accordingly during his stay.
The Colorado Springs Gazette gives a detailed account of the killing of Chas. Wilson and Elmore Marvin, both colored, by a gang of cow-boys at Hugo on Saturday last. From all that is known it is understood that the negroes and the cow-boys were all drunk, and hence the row.
A. E. Clifton, who, as agent some time since sold the Caledonian mine at Central City, Col., to Cincinnati parties and skipped out with the first payment of ten thousand dollars, has been captured at New Orleans, and the Colorado authorities have sent a man to bring him back there for trial.
Mr. William Pinkerton, of Wagon Mound, called at the GAZETTE office yesterday. Mr. Pinkerton has been down to Santa Fe, and was on his way home. He informs us that a post-office has recently been established at Wagon Mound, and named Pinkerton, much to the chagrin of the modest proprietor of the name, in that community.
Geo. S. Sweet, the able editor of the Galveston Journal of Commerce, is writing a splendid series of letters on New Mexico, the climate, productions, mineral resources, hot springs, etc. He gives a just word of praise to all, and shadows forth in eloquent words the future greatness of the Territory and the growing city of Las Vegas. Such endorsements will do us good. Mr. Sweet is urging the rapid construction of the great Texas Midland railroad to Las Vegas. He says it is coming as surely as the sun will rise this morning, and coming rapidly.

A meeting was held at Trinidad on Monday last and a company organized for the purpose of building a railroad from El Moro to Trinidad and thence south to the Colorado line by way of Long's Canon. Articles of association were agreed to and filed with the County Recorder and an application made to the Secretary of State for a charter. As soon as this is granted they propose to push work upon the road as rapidly as possible. The purpose is to build on south from the head of Long's Canon via the head of Red River and the Vermejo to Las Vegas, provided the people of Las Vegas want, and will help to build this southern extension. Judging from the tone of the News the people of Trinidad mean business in this matter and are going to push it through at once. This line to Las Vegas would give us, with the D. & N. O. completed, three lines to Denver and the east, and we have no hesitancy in saying that Las Vegas will, at all times, be found willing and ready to give substantial aid to any enterprise that promises a railroad over this route which has been all along a favorite one with Las Vegas people.
From the Denver Times we learn that Edward A. Eggleston who made himself notorious throughout Colorado for his brilliancy as a writer upon mining matters, as well as by his consummate rascality, was killed by Indians a short time since, near Fort Wingate. He came to Colorado several years ago, as a mining expert and scientific correspondent for eastern papers. After various adventures he was jailed at Pueblo for shooting a man whom he had swindled at Rosita. After being in jail four months he secured bail and left Colorado coming down in to New Mexico and passing under the name of Hugh Marshall. He was finally identified and taken back to Pueblo and jailed to await trial and just before the time fixed for his trial he escaped, and again assuming the name of Hugh Marshall, came into this Territory, married and lived about Albuquerque until he met his fate at the hands of the Indians.
Yesterday evening as a freight train containing 60 or 65 cars was coming down the grade on this side of the mountain, one of the draw bars of a car in the middle of the train was pulled out and divided the train. The men on the front saw it and skipped out as lively as possible, while every man on the rear grabbed a brake and tried to stop it, which they did after short run. The train was under the manipulation of "Happy Jack," and it did not take him very long to have things in running order again. The managers of the road will continue to send 60 and 70 cars down the mountain with only two or three brakemen, until some of these days they will make match-timber of the whole biz, and kill a half dozen men. —Trinidad News.
We had the pleasure yesterday of inspecting Doc Milligan's new hall, and found it finely adapted to its purpose. It is sixty feet long by twenty-four wide and will seat from two hundred to two hundred and fifty persons. The stage is twelve feet deep by thirteen feet wide and is provided with four elegantly painted curtains. This hall and its convenient appointments suggest that Las Vegas should have a lecture association or some means of providing wholesome and instructive entertainments for the long winter evenings that will soon be here.
Fine Apples.
J. J. Dolan arrived yesterday from Fort Stanton. He brought up with him and presented us some very large and fine apples grown in the orchard of Chas. Fritz. Mr. Fritz's ranch is situated on the Rio Bonito, some eighteen miles east of Fort Stanton. The fruit is of peculiarly fine flavor, mellow and thin skinned. They are as good as we ever tasted, and show what can be done in New Mexico with a little attention and care. This will be pre-eminently a fruit country.
Walking Match.
Arrangements have been completed for the walking match between Madame DuPre, of Chicago, and three picked men of this city. The former will walk for six consecutive days, and the latter will walk two days each. The bet is for \$500 that the lady will walk a greater distance than three men. It will make an exciting contest. The Las Vegas orchestra will be in attendance, and the best order will be maintained. The whole will be under the management of Billy Burton, of this city.
People who contemplate locating in Las Vegas, and there are myriads of them at the present time, can rest assured that we will get three more railroads inside of two years. One will be the Narrow Gauge from Denver, another will be the Texas Midland from Galveston, and the third will be the St. Louis & San Francisco, soon to be put under construction from Vinita in the Indian Territory. These three roads will find their way into the valley of the Gallinas with the certainty of fate.
Volume 1, No. 1, of the Mineral City News, by J. W. Barney, editor and proprietor, has been received. It is a very creditable five-column paper, replete with news and local items relating to Mineral Hill. Long may it live and grow in prosperity with the growth of this lively camp.

BORN.
To the wife of Andres Sena, at Los Alamos, Oct. 5th, a son.
We appreciate the advertising Las Vegas gives Trinidad, but in making clippings, we ask the GAZETTE to give credit to the paper it clips from. We don't care to build up a reputation for the opposition paper. —Trinidad News.
We clipped some sharp little thing from the Trinidad News a few days since and by mistake credited it to the Times, and hence the above complaint from the News. We stand corrected and beg pardon. We believe in "rendering unto Caesar the things that are Caesar's," always, and if we fail at any time to do so, let Caesar come forward and claim his own as the News does.
Now let Las Vegas join hands with Trinidad and build the new railroad clear through to Las Vegas. —Trinidad News.
Las Vegas extends both hands and will have them well filled with substantial encouragement whenever she is satisfied that Trinidad means business.
The Texas Midland.
By the Texas Midland railroad we will be but eight hundred miles from the Gulf. One-third of the road is already built, and the balance will be built.
